

FULL-COLOUR STAND PANELS

Give your 'standard' stand panels a full-colour upgrade and communication power!

The full-colour printing of your stand panels gives them a striking and professional look for an exceptionally low price. In this way, you can enhance the whole side and/or back walls and door of your stand with atmospheric images, texts and logos, naturally incorporating your corporate house style.

You can also choose to have just one or a few panels printed. The walls are put up during the construction of the trade fair, so your stand is ready to use at the moment you arrive to set up.

- a great 'look and feel'
- reasonably priced
- print-to-plate
- integration into the rest of the stand
- includes assembly and disassembly
